NOTE 1. GROUP’S ORGANIZATION AND NATURE OF ACTIVITIES (continued)

Work Environments and Economic Conditions of Subsidiaries and Joint Ventures in Foreign Countries

Certain countries, in which consolidated subsidiaries and joint ventures operate, have undergone substantial political and economic changes in recent years. Accordingly, such markets do not possess well-developed business infrastructures and the Group’s operations in such countries might carry risks, which are not typically associated with those in more developed markets. Uncertainties regarding the political, legal, tax and/or regulatory environment, including the potential for adverse changes in any of these factors, could significantly affect the commercial activities of subsidiaries and joint ventures.

Developments in Russia and Ukraine

The Group is closely following the developments in Russia and Ukraine, where the Group has beer operations. The Group has taken all possible precautions to ensure the safety of its employees.

Accordingly, as of February 24, 2022, breweries were shut down and the sales operations were halted and in the light of the developments in the region, the brewery facility in Chernihiv, Ukraine restarted production as of October 2022 and the brewery facility in Mikolayiv, Ukraine restarted production as of May 2023. Throughout 2024, the Chernihiv and Mikolayiv factories continued production. On January 28, 2025, damage occurred at the Mykolaiv brewery of PJSC AB InBev Efes as a result of an explosion in the city of Mykolaiv, Ukraine, and production activities at the facility were temporarily suspended. Accordingly, impairment losses have been recognized on property, plant and equipment and on inventories, and have been reflected in the consolidated financial statements as of December 31, 2025. As part of the preparation of the consolidated financial statements dated 31 December 2025, the Group assessed the potential impacts of the developments in Ukraine, as well as the related estimates and assumptions, and determined that no significant impairment was identified other than those disclosed in Notes 19 and 20.

On December 30, 2024, it was announced that temporary management had been appointed to the Group’s beer operation in Russia in accordance with the Presidential Decree of the Russian Federation. Following this development, the Group’s management determined that control over the operation was effectively held by the Group as of December 31, 2024, in accordance with TFRS 10, and accordingly, the relevant subsidiaries were included in the consolidation scope in the financial statements as of December 31, 2024. In line with the developments in the ongoing process, as a result of the Group’s assessments, it was decided that, as of January 1, 2025, the financial statements would be excluded from the consolidation scope in accordance with TFRS 10. While the relevant company remains part of the Group, it has been accounted for as a financial investment in March 31, 2026 consolidated financial statements. The reconciliation of the income arising from the change in the scope of consolidation in 2025, which has been recognized under investment activity income/(expense), is as follows:

NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

2.1 Basis of Preparation and Presentation of Consolidated Financial Statements

Statement of Compliance to TFRS

The consolidated financial statements are prepared in accordance with the Capital Markets Board (CMB)'s "Communiqué on Financial Reporting in Capital Market" Numbered II-14,1 (Communiqué), promulgated in the Official Gazette numbered 28676 dated June 13, 2013 and Turkish Accounting/Financial Reporting Standards (TAS/TFRS) including amendments and interpretations published by Public Oversight Authority (POA) as prescribed in the CMB Communiqué.

The consolidated financial statements are presented in accordance with the specified format in “TFRS Taxonomy Announcement”, issued on July 3, 2024 by the POA, and “the Financial Statements Examples and Guidelines for Use”, published by the Capital Markets Board (CMB) of Türkiye.

The Company and its Turkish subsidiaries and joint ventures maintain their books of accounts and prepare their statutory financial statements in accordance with TFRS, Turkish Commercial Code (“TCC”), tax legislation, the Uniform Chart of Accounts issued by the Ministry of Finance. The foreign subsidiaries maintain their books of account in accordance with the laws and regulations in force in the countries in which they are registered. These consolidated financial statements have been prepared under historical cost conventions except for financial assets and financial liabilities which are carried at fair value. The consolidated financial statements have been prepared based on historical cost for foreign operations, and on indexed cost in accordance with TAS 29 for domestic operations, with the exception of financial assets and liabilities shown at fair value. Adjustments and classifications necessary for accurate presentation in accordance with TFRS have been reflected in the legal records.

In accordance with the Turkish Accounting Standard (TAS) 34 'Interim Financial Reporting,' companies are free to prepare their interim financial statements either as a complete set or in summary form. Within this framework, the Group has opted to prepare summary consolidated interim financial statements during interim periods. The interim summary consolidated financial statements and notes have been presented, including the information mandated by the Capital Markets Board (CMB).

Additionally, in accordance with the Communiqué and its explanatory announcements, the collateral, pledge, and mortgage table, the foreign exchange position table, the total export and import amounts, the tax advantages obtained under the investment incentive system, the R&D incentives, and the portion of the total foreign exchange liability that is hedged are presented in the notes to the condensed financial statements (Notes 16, 22, 25).

The interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the accompanying notes for the year ended December 31, 2025.

NOTE 2. BASIS OF PRESENTATION OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.1 Basis of Preparation and Presentation of Interim Condensed Consolidated Financial Statements (continued)

Adjustment of financial statements in hyperinflationary periods

With the announcements made by the Public Oversight Accounting and Auditing Standards Authority (POA) on November 23, 2023, entities applying TFRSs have started to apply inflation accounting in accordance with TAS 29 Financial Reporting in Hyperinflation Economies as of financial statements for the annual reporting period ending on or after December 31, 2023. TAS 29 is applied to the financial statements, including the consolidated financial statements, of any entity whose functional currency is the currency of a hyperinflationary economy.

According to the standard, financial statements prepared in the currency of a hyperinflationary economy are presented in terms of the purchasing power of that currency at the balance sheet date. Prior period financial statements are also presented in the current measurement unit at the end of the reporting period for comparative purposes. The Group has therefore presented its consolidated financial statements as of March 31, 2025, and December 31, 2025 on the purchasing power basis as of March 31, 2026.

In accordance with the CMB's decision dated December 28, 2023, and numbered 81/1820, issuers and capital market institutions subject to financial reporting regulations applying Turkish Accounting/Financial Reporting Standards are required to apply inflation accounting by applying the provisions of TAS 29 to their annual financial statements for the accounting periods ending on December 31, 2023.

The restatements in accordance with TAS 29 have been made using the adjustment factor derived from the Consumer Price Index ("CPI") in Türkiye published by the Turkish Statistical Institute. As of March 31, 2026, the indexes and adjustment factors used in the restatement of the consolidated financial statements are as follows:

| Dates | Index | Adjustment Coefficient | Three-Year Compound Inflation Rate |
|-------------------|--------|------------------------|------------------------------------|
| March 31, 2026 | 121,47 | 1,00000 | %205 |
| December 31, 2025 | 110,39 | 1,10040 | %211 |
| March 31, 2025 | 92,82 | 1,30865 | %250 |

The main components of Company's restatement for the purpose of financial reporting in hyperinflationary economies are as follows:

- The consolidated financial statements for the current period presented in TL are expressed in terms of the purchasing power at the balance sheet date and the amounts for the previous reporting periods are restated in accordance with the purchasing power at the end of the reporting period.
- Monetary assets and liabilities are not restated as they are currently expressed in terms of the purchasing power at the reporting period. Where the inflation-adjusted amounts of non-monetary items exceed the recoverable amount or net realizable value, the provisions of TAS 36 and TAS 2 have been applied, respectively.
- Non-monetary assets, liabilities and equity items that are not expressed in the current purchasing power at the reporting period are restated by applying the relevant conversion factors.
- All items in the statement of comprehensive income, except for the effects of non-monetary items in the statement of financial position on the statement of comprehensive income, are indexed using the coefficients calculated based on the periods in which the income and expense accounts were initially recognized in the financial statements.
- The effect of inflation on the Group's net monetary asset position in the current period is recognized in the consolidated statement of profit or loss in the net monetary position loss account.

2.3 Seasonality of Operations

Due to higher beverage consumption during the summer season, the interim condensed consolidated financial results may include the effects of the seasonal variations. Therefore, the results of business operations for the first three months up to March 31, 2026 may not necessarily constitute an indicator for the results to be expected for the overall fiscal year.

2.4 Significant Accounting Estimates and Decisions

Preparation of consolidated financial statements requires management to make estimations and assumptions which may affect the reported amounts of assets and liabilities as of the statement of financial position date, the disclosure of contingent assets and liabilities and the reported amounts of income and expenses during the financial period. The accounting assessments, estimates and assumptions are reviewed considering past experiences, other factors and reasonable expectations about future events under current conditions. Although the estimations and assumptions are based on the best estimates of the management’s existing incidents and operations, they may differ from the actual results. There has not been any change in accounting estimates compared to year end.

2.5 Changes in Accounting Policies

Adoption of new and revised Turkish Financial Reporting Standards

New standards, amendments and interpretations to existing standards that are effective as of March 31, 2026:

Amendment to TFRS 9 and TFRS 7 - Classification and Measurement of Financial Instruments; effective from annual reporting periods beginning on or after 1 January 2026 (earlier application permitted). These amendments:

- Clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
- Clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
- Add new disclosures for certain instruments with contractual terms that can change cash flows (such as some instruments with features linked to the achievement of environment, social and governance (ESG) targets); and
- Make updates to the disclosures for equity instruments designated at Fair Value through Other Comprehensive Income (FVOCI).

Annual improvements to TFRS – Volume 11; effective from annual periods beginning on or after 1 January 2026 (earlier application permitted). Annual improvements are limited to changes that either clarify the wording in an Accounting Standard or correct relatively minor unintended consequences, oversights or conflicts between the requirements in the Accounting Standards. The 2024 list of amended Accounting Standard and accompanying guidance include the following:

- TFRS 1 First-time Adoption of International Financial Reporting Standards;
- TFRS 7 Financial Instruments: Disclosures and its accompanying Guidance on implementing TFRS 7;
- TFRS 9 Financial Instruments;
- TFRS 10 Consolidated Financial Statements; and
- TMS 7 Statement of Cash Flows.

Amendment to TFRS 9 and TFRS 7 - Contracts Referencing Nature-dependent Electricity; effective from annual periods beginning on or after 1 January 2026 (earlier application permitted). These amendments change the 'own use' and hedge accounting requirements of TFRS 9 and include targeted disclosure requirements to TFRS 7. These amendments apply only to contracts that expose an entity to variability in the underlying amount of electricity because the source of its generation depends on uncontrollable natural conditions (such as the weather). These are described as ‘contracts referencing nature-dependent electricity’.

These amendments did not have a significant impact on the Group’s financial position and performance.

Standards, amendments, and interpretations that are issued but not effective as of 31 March 2026:

TFRS 17, “Insurance Contracts”; is effective for annual reporting periods beginning on or after January 1, 2023. This standard replaces TFRS 4, which currently permits a wide variety of practices. TFRS 17 will fundamentally change the accounting of all entities that issue insurance contracts and investment contracts with discretionary participation features. The Group does not expect these amendments to have a significant impact on its financial position and performance.

2.5 Changes in Accounting Policies (continued)

Adoption of new and revised Turkish Financial Reporting Standards (continued)

Standards, amendments, and interpretations that are issued but not effective as of 31 March 2026: (continued)

Amendments to TMS 21 - Translation to a Hyperinflationary Presentation Currency; effective from annual periods beginning on or after 1 January 2027 (earlier application permitted). These narrow-scope amendments specify the translation procedures for an entity whose presentation currency is that of a hyperinflationary economy. The entity applies the amendments if:

- its functional currency is that of a non-hyperinflationary economy and it is translating its results and financial position into the currency of a hyperinflationary economy; or
- its translating into the currency of a hyperinflationary economy the results and financial position of a foreign operation whose functional currency is that of a non-hyperinflationary economy.

The amendments aim to improve the usefulness of the resulting information in a cost-effective manner and reduce diversity in practice. The Group does not expect these amendments to have a significant impact on its financial position and performance.

TFRS 19 Subsidiaries without Public Accountability: Disclosures’; effective from annual periods beginning on or after 1 January 2027 (earlier application permitted). This new standard and amendments works alongside other TFRS Accounting Standards. An eligible subsidiary applies the requirements in other TFRS Accounting Standards except for the disclosure requirements and instead applies the reduced disclosure requirements in TFRS 19. TFRS 19’s reduced disclosure requirements balance the information needs of the users of eligible subsidiaries’ financial statements with cost savings for preparers. TFRS 19 is a voluntary standard for eligible subsidiaries. A subsidiary is eligible if:

- it does not have public accountability; and
- it has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with TFRS Accounting Standards.
- Amendment to TFRS 19 Subsidiaries without Public Accountability: Disclosures’; effective from annual periods beginning on or after 1 January 2027 (earlier application permitted). In developing the reduced disclosure requirements in TFRS 19, the IASB considered the disclosure requirements in other TFRS Accounting Standards as at 28 February 2021. When TFRS 19 was issued, it did not contain reduced versions of any disclosure requirements that were added or amended after that date. Subsequently, the IASB issued these amendments to help eligible subsidiaries by reducing disclosure requirements for Standards and amendments issued between February 2021 and May 2024, specifically:
 - TFRS 18, ‘Presentation and Disclosure in Financial Statements’;
 - Supplier Finance Arrangements (Amendments to TMS 7 and TFRS 7);
 - International Tax Reform—Pillar Two Model Rules (Amendments to TMS 12);
 - Lack of Exchangeability (Amendments to TMS 21); and
 - Amendments to the Classification and Measurement of Financial Instruments (Amendments to TFRS 9 and TFRS 7).

The Group does not expect these amendments to have a significant impact on its financial position and performance.

NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.5 Changes in Accounting Policies (continued)

Adoption of new and revised Turkish Financial Reporting Standards (continued)

Standards, amendments, and interpretations that are issued but not effective as of 31 March 2026: (continued)

IFRS 18 Presentation and Disclosure in Financial Statements; effective from annual periods beginning on or after 1 January 2027 (earlier application permitted). This is the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to:

- the structure of the statement of profit or loss;
- required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity’s financial statements (that is, management-defined performance measures); and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.

To comply with paragraph 30 of TMS 8, it is expected that March year-end disclosures should about:
the nature of the changes,

- the fact that IFRS 18 application is required for annual periods beginning on or after 1 January 2027,
- the planned adoption date, and
- either:
 - known or reasonably estimable information relevant to assessing the possible impact that application of IFRS 18 will have on the entity’s financial statements in the period of initial
 - application; or
 - if that impact is not known or reasonably estimable, a statement to that effect.

When preparing disclosures related to the adoption of IFRS 18 to comply with paragraph 30 of TMS 8, entities should consider the following principles:

- a. Disclosures are expected to become increasingly detailed as entities’ implementation process progresses toward 2027. The level of detail that an entity includes in its disclosures will depend on the progress of its implementation activities, including those related to internal controls. For the year ending 31 March 2026, entities that have yet to make significant progress in implementation might only disclose that they are actively assessing the impact of IFRS 18 and that more comprehensive disclosures cannot reasonably be provided.
- b. Where appropriate and reliable, consider including quantitative information. It may be appropriate to disclose preliminary figures, when the company has an appropriate and reliable basis for making such disclosures and provides clear explanations regarding their provisional nature. For example, an entity might quantify the effects on profit and loss subtotals. If the quantitative impact is not reasonably estimable, a statement to that effect should be included. An entity may disclose known and reasonably quantifiable impacts, but it is not expected to early provide IFRS 18 disclosures, such as an MPM reconciliation, before the application date.
- c. Consider alignment with other public communications. If management has publicly detailed anticipated impacts, such as in an investor presentation, the TMS 8 financial statement disclosures should be consistent with these communications.

Disclosures should be based on the information available through the date of issuance of the financial statements, not only the end of the reporting period.

The Group is evaluating the impact of these amendments on its financial position and performance.

NOTE 4. SEGMENT REPORTING

The management monitors the operating results of its two business units separately for the purpose of making decisions about resource allocation and performance assessment. The two operating segments are Beer Operations (Beer Group) and Soft Drinks Operations (Soft Drinks).

Segment performance is evaluated based on “EBITDA Before Non-Recurring Items” (EBITDA BNRI) which is calculated excluding profit from discontinued operations and the following effects from profit from continuing operations attributable to our equity holders: (i) non-controlling interest, (ii) tax (expense)/income, (iii) share of gain/(loss) of investments accounted using equity method, (iv) financial income/(expense), (v) investment activity income/(expense) (vi) foreign exchange gains/(losses) arising from operating activities (vii) depreciation, amortization, and other non- cash items and (viii) non-recurring items associated with Profit/Loss from Operating Activities. Non-recurring items are either income or expenses which do not occur regularly as part of the normal activities of the Group.

EBITDA BNRI is not an accounting measure under TFRS accounting and does not have a standard calculation method however it has been considered as the optimum indicator for the evaluation of the performance of the operating segments by considering the comparability with the entities in the same business.

The Group's segment reporting in accordance with TFRS 8 is disclosed as follows

NOTE 15. CAPITAL RESERVES AND OTHER EQUITY ITEMS

The legal reserves consist of first and second legal reserves in accordance with the Turkish Commercial Code. The first legal reserve is appropriated out of the statutory net income at the rate of 5%, until the total reserve reaches a maximum of 20% of the Company’s issued capital. The second legal reserve is appropriated at the rate of 10% of all distributions in excess of 5% of the Company’s issued capital. The legal reserves are not available for distribution unless they exceed 50% of the issued capital, other than that legal reserves cannot be used.

Public companies distribute dividends in accordance with the Dividend Communiqué No. II-19.1 of the Capital Markets Board, which came into effect on February 1, 2014, and the announcement made pursuant to the decision of the Board's Decision-Making Body dated March 7, 2024, and numbered 14/382.

Companies distribute dividend within the framework of the profit distribution policies determined by the general assemblies and in accordance with the related legislation by the decision of the general assembly. Within the scope of the communiqué, a minimum distribution ratio has not been determined. Companies pay dividends as specified in articles of incorporation and in profit distribution policies.

The positive differences from the inflation adjustment of the paid-in capital can be used in bonus issue of shares. Restricted reserves appropriated from profits and extraordinary reserves can be used in bonus issue of shares, cash dividend distributions, or offsetting losses.

For March 31, 2026, nominal amounts, equity index differences and indexed value of equity are as follows:

| | March 31, 2026 | | |
|---|--|------------------------------------|--|
| | Statutory Amounts Indexed per PPI | Amounts Indexed per CPI | Amounts Presented in Prior Years' Profits |

NOTE 16. COMMITMENTS AND CONTINGENCIES (continued)

Murabaha

CCBPL has signed Murabaha facility agreements with Habib Bank Limited and Standard Chartered Bank (“Banks”). Based on these agreements, the Banks and CCBPL agree that they shall enter into a series of sugar and resin purchase transactions from time to time on the dates and in the amounts to be agreed between them subject to the terms of this agreement. As of March 31, 2026, CCBPL has a commitment to purchase sugar and resin in the amount of 44,4 million USD from the Banks by the end of December 31, 2026, and sugar and resin in the amount of 13,4 million USD by the end of December 31, 2026. (December 31, 2025 – there is a commitment to purchase sugar amounting to USD 5.5 million until June 30, 2026 and USD 20 million until September 30, 2026 from Banks)

Tax and Legal Matters

Legislation and regulations regarding taxation and foreign currency transactions in most of the territories in which the Group operates out of Türkiye continue to evolve as a result of the transformation from command to market oriented economy managed by the government. The various legislation and regulations are not always clearly written and the interpretation related with the implementation of these regulations is subject to the opinions of the local, regional and national tax authorities, the Central Bank and Ministry of Finance. Tax declarations, together with other legal compliance areas (For example, customs and currency control) are subject to review and investigation by a number of authorities, who are enabled by law to impose significant fines, penalties and interest charges. These facts may create tax risks in the territories in which the Group operates substantially more so than typically found in countries with more developed tax systems.

Litigations against the Group

Beer Group

As of March 31, 2026, according to the legal opinion obtained by the management in response to the 59 lawsuits filed against Beer Operations, in the event of loss the estimated compensation will be million TL107.126. In the opinion given by the legal counsel of the Group, it is stated that there is low probability of losing the cases and so no provision has been made in the financial statements. (December 31, 2025 - estimated compensation TL106.541).

Soft Drink

CCI and subsidiaries in Türkiye are involved on an ongoing basis litigations arising in the ordinary course of business as of March 31, 2026 with an amount of TL 60.832 (December 31, 2025 – TL 51.053). According to the legal opinion obtained by the management no court decision has been granted yet as of March 31, 2026. (December 31, 2025 – TL 51.053)

As of March 31, 2026, CCBPL has various tax litigations. If the claims are resulted against CCBPL, the tax liability would be TL 120.664 (December 31, 2025 – TL 126.023).

The Group’s subsidiary operating in Uzbekistan, LLC Coca-Cola Bottlers Uzbekistan (“CCBU”), was subject to a tax audit by the Uzbek Tax Administration. As a result of this, in May 2025, the tax authorities calculated a total amount of approximately 25 million USD (equivalent to 314.5 billion UZS), which includes taxes, penalties, and interest related to various matters, including dividend distributions made in 2023 and 2024. CCBU applied to the higher authority within the Uzbek Tax Administration. The related amount was paid on January 5, 2026. CCBU has filed a legal action regarding this matter. Group management expects a favorable outcome of the case.

The Group management does not expect an adverse outcome regarding these cases, and these cases are not of a nature that would materially affect the Group’s results of operations, financial position or liquidity.

NOTE 22. TAX ASSETS AND LIABILITIES (continued)

Tax advantages obtained under the investment incentive system

The Group's earnings from investments tied to an incentive certificate are subject to corporate tax at discounted rates, starting from the accounting period in which the investment is partially or fully operational, until the investment contribution amount is reached. In this context, tax advantage amounting to TL1.653.153 (December 31, 2025: TL 1.662.707) that the Group's will benefit from in the foreseeable future as of March 31, 2026 is reflected in the consolidated financial statements as a deferred tax asset. As a result of the recognition of the said tax advantage as of March 31, 2026, deferred tax income / (expense) amounting to TL 9.553 has been realized in the consolidated profit or loss statement for the period from January to March 31, 2026.

According to the tax incentive certificates summarized above, the current period no corporate tax provision discounted corporate tax advantage has been used. (March 31, 2025: None)

Deferred tax assets are recognized when it is determined that taxable income is likely to occur in the coming years. In cases where taxable income is likely to occur, deferred tax assets are calculated over deductible temporary differences, tax losses and tax advantages vested in indefinite-lived investment incentives that allow reduced corporate tax payments. In this context, the Group's bases the reflection of deferred tax assets arising from investment incentives in the consolidated financial statements on long-term plans and evaluates the recoverability of deferred tax assets related to these investment incentives as of each balance sheet date, based on business models that include taxable profit estimations. It is foreseen that the deferred tax assets in question will be recovered within 5 years from the balance sheet date.

In the sensitivity analysis carried out as of March 31, 2026, when the inputs in the basic macroeconomic and sectoral assumptions that make up the business plans are increased/decreased by 10%, the recovery period of deferred tax assets regarding investment incentives, which is foreseen as 5 years, has not changed.

R&D incentives

The Group capitalizes its R&D expenses incurred within the scope of Law No. 5746. In accordance with the provisions of the same law, the Group benefits from the R&D tax incentive for the portion of R&D expenses permitted by the legislation. A tax benefit amounting to TL 37.307 (March 31, 2025: TL 17.924) arising from unused R&D tax incentives that is expected to be utilized in the foreseeable future has been recognized as a deferred tax asset in the financial statements. In relation to this deferred tax asset, a deferred tax expense amounting to TL19.384 has been recognized in the statement of profit or loss for the period between January 1 and March 31, 2026.

NOTE 23. EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the net income for the period attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period.

Weighted average number of shares represents the number of shares as a result of capital increase and adjusted number of shares at the beginning period multiplied with the time-weighting factor. Time weighting factor is calculated by dividing the number of days that the shares are available by the total number of days of the period. The Group has no dilutive instruments.

Following table illustrates the net income and share figures used in earnings per share calculation:

| | March 31, 2026 | March 31, 2025 |
|--|-----------------------|----------------|
| Weighted average number of shares (full value) (*) | 5.921.052.630 | 5.921.052.630 |
| Profit/ (loss) for the owners of parent | 2.009.692 | 2.257.624 |
| Earnings/ (losses) per share (full TL) | 0,3394 | 0,3813 |
| Profit/ (loss) for the owners of parent | 2.009.692 | 2.257.624 |
| Profit/ (loss) from continuing operations | 2.009.692 | 2.257.624 |
| Earning/ (losses) per share from continuing operations (full TL) | 0,3394 | 0,3813 |

There have been no other transactions involving ordinary shares or potential ordinary shares between the financial statement date and the date of approval of these financial statements.

(*) As a result of the bonus share issuance registered on 24 June 2025, new shares were issued without any consideration in exchange for existing ordinary shares. This issuance increased the number of ordinary shares without any increase in resources. Accordingly, the number of ordinary shares outstanding before the issuance has been adjusted proportionally to reflect the change in the number of shares

NOTE 25. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

The Group’s principal financial instruments comprise bank borrowings, leases, cash and short-term deposits. The main purpose of these financial instruments is to raise funds for the Group’s operations. Besides, The Group has various other financial instruments such as trade debtors and trade creditors, which arise directly from its operations.

The main risks arising from the Group’s financial instruments can be identified as interest rate risk, foreign currency risk, foreign currency hedge risk of net investments in foreign operations, liquidity risk, price risk, credit risk and capital risk. The Group management reviews and agrees policies for managing each of these risks. The Group also monitors the market price risk arising from all financial instruments.

a) Interest Rate Risk

The Group is exposed to interest rate risk through the impact of rate changes on interest bearing assets and liabilities. The Group manages interest rate risk by using natural hedges that arise from offsetting interest rate of assets and liabilities or derivative financial instruments.

Some of the interest rates associated with financial liabilities are based on prevailing market interest rates. Therefore, the Group is affected by changes in interest rates in national and international markets. The Group's exposure to market risk arising from changes in interest rates is primarily related to its debts and liabilities. The Group makes foreign currency swap transactions to hedge interest rate risk as stated in Note 8.

b) Foreign Currency Risk

Foreign currency risk generally arises from the EUR and USD denominated assets and liabilities of the Group. The Group has transactional currency exposures. Such exposures arise from sales or purchases of goods and services or borrowings of the Group in currencies other than the functional currency. The Group manages short term foreign currency risk by balancing foreign currency denominated assets and liabilities. The Group designates certain part of its bank deposits for the future raw material purchases, operational expense and interest related payments. The Group also conducts foreign exchange forward transactions and cross currency swap transactions in order to hedge its foreign currency risk as stated in Note 8. Accordingly, in the short term foreign currency risk that may arise from fluctuation of foreign currencies are relatively limited.

c) Foreign Currency Hedge of Net Investments in Foreign Operations

Beer Group has designated an instrument which is amounting to USD500 million out of USD500 million bond issued as of June 29, 2021 to hedge its foreign currency risk arising from the translation of net assets of its subsidiary located in Netherlands, Efes Breweries International (whose main activity is facilitating foreign investments in breweries).

Soft Drink Group has designated two instruments, the first one amounting to USD 65,4 million bank loan drawn on April 24, 2024, and the second one amounting to USD 500 million out of USD 500 million bond issued as of January 20, 2022, as a hedging instrument in order to hedge its foreign currency risk arising from the translation of net investments of its subsidiary located in Netherlands, CCI Holland and Waha B.V.

The effective part of the change in the value of the bonds and loans designated as hedging of net investments amounting to TL1.695.134 (TL 1.271.351- including deferred tax effect) is recognized as “Gains (Losses) on Hedge” under Equity and to “Other Comprehensive Income (Loss) Related with Hedges of Net Investment in Foreign Operations” under Other Comprehensive Income (March 31, 2025 – TL 3.581.015 (TL 2.685.776- including deferred tax effect)).

d) Liquidity Risk

Liquidity risk is the risk that an entity will be unable to meet its net funding requirements. The risk is mitigated by matching the cash in and out flow volume supported by committed lending limits from qualified credit institutions. The Group also reduces the risk by preferring long-term debt.

e) Price Risk

This is a combination of currency, interest and market risks which the Group manages through natural hedges that arise from offsetting the same currency receivables and payables, interest bearing assets and liabilities. Market risk is closely monitored by the management using the available market information and appropriate valuation methods.

NOTE 25. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (continued)

f) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Group attempts to control credit risk by limiting transactions with specific counterparties and assessing the creditworthiness of the counterparties.

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographic location.

The Group seeks to manage its credit risk exposure through diversification of sales activities to avoid undue concentrations of risks with individuals or groups of customers in specific locations or businesses. The Group keeps guarantees for a part of its receivables by means of DDS (Direct Debit System) and the clearance of credit card receivables of its dealer and distributors from the banks. The Group also obtains guarantees from the customers when appropriate and keep considerable portion of the receivables secured with guarantees or receivable insurance.

The credit risks of the banks in which the Group has deposits are evaluated by taking into account independent data, and no significant credit risk is expected apart from the expected loss provision presented in Note 5.

g) Capital Risk Management

The Group's policy is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Group periodically measures Net Debt to EBITDA BNRI ratio to maintain capital risk management. Net Debt is calculated by deducting cash and cash equivalents and short term financial investment from total borrowing.

NOTE 26. FINANCIAL INSTRUMENTS (FAIR VALUE AND HEDGE ACCOUNTING DISCLOSURES)

Fair Value

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable, willing parties in an arm's length transaction. The optimum fair value of a financial instrument is the quoted market value, if any.

The financial assets and liabilities which are denominated in foreign currencies are evaluated by the foreign exchange rates prevailing on the date of balance sheet which approximate to market rates. The following methods and assumptions were used to estimate the fair value of each class of financial instrument of the Group for which it is practicable to estimate a fair value:

a) Financial Assets

The fair values of certain financial assets carried at cost in the consolidated financial statements, including cash and cash equivalents plus the respective accrued interest and other financial assets are considered to approximate their respective carrying values due to their short-term nature and negligible credit losses. The carrying value of trade receivables along with the related allowance for unearned income and uncollectibility are estimated to be their fair values.

b) Financial Liabilities

Trade payables and other monetary liabilities are considered to approximate their respective carrying values due to their short-term nature. The bank borrowings are stated at their amortized costs and transaction costs are included in the initial measurement of loans and bank borrowings. The fair value of bank borrowings are considered to state their respective carrying values since the interest rate applied to bank loans and borrowings are updated periodically by the lender to reflect active market price quotations. The carrying value of trade payables along with the related allowance for unrealized cost is estimated to be their fair values.

Derivative Instruments, Risk Management Objectives and Policies

Derivative instruments and hedging transactions are explained in Note 8 and Note 26.

NOTE 29. EVENTS AFTER REPORTING PERIOD

- a) On April 2, 2026, 50,10% of the shares of Anadolu Etap Dış Ticaret A.Ş. were acquired by the Company and 49,90% by Anadolu Group. On the same date, a Share Purchase Agreement (“Agreement”) was signed between Anadolu Etap Dış Ticaret A.Ş. and S.S. Tariş Üzüm Tarım Satış Kooperatif Birliği for the acquisition of shares corresponding to 60% of the share capital of Tariş Üzüm for a projected consideration of USD 26 million. The purchase price will be finalized in accordance with the provisions of the Agreement, following adjustments for working capital and financial debt based on the balance sheet of Tariş Üzüm as of the closing date.
- b) According to the consolidated financial statements of the Soft Drink Group prepared in accordance with TFRS, the net profit for the fiscal year 2025 amounted to TL 14.072.351. After deducting statutory obligations, it has been resolved—entirely from the 2025 net profit—to distribute a total gross amount of TL 4.001.252 to shareholders as of May 12, 2026, and to retain the remaining portion of the 2025 net profit as extraordinary reserves within CCI; this Board of Directors’ resolution was approved at the General Assembly dated April 8. From the 2025 net profit, a cash dividend of gross full TL 1,4300 (net full TL 1,4300) per 100 shares with a nominal value of full TL 1 shall be paid to full taxpayer corporations and non-resident corporations deriving dividend income through a workplace or permanent representative in Türkiye, and gross full TL 1,4300 (net full TL 1,2155) per 100 shares shall be paid to other shareholders.
- c) It has been approved at the General Assembly dated April 13, 2026 that, for the period January–December 2025, a gross dividend distribution of 33,95% shall be made over the issued capital of TL 592.105 as of the end of the accounting period, corresponding to gross TL 0,3395 per share with a nominal value of full TL 1; accordingly, a dividend of net = gross TL 0,3395 per share shall be paid to shareholders that are full taxpayer corporations and non-resident corporations deriving dividend income through a workplace or permanent representative in Türkiye, and gross full TL 0,3395 (net full TL 0,288575) per share shall be paid to other shareholders, amounting in total to TL 2.010.197, to be covered from the Retained Earnings account in the statutory records and paid in cash. It has also been approved that the cash dividend shall be paid in two equal installments, with the first installment to be paid as gross full TL 0,16975 per share starting from May 13, 2026, and the second installment to be paid as gross full TL 0,16975 per share starting from October 5, 2026.
